Automated COSAL Improvement Program (ACIP)

- **Current Status**
- **Potential Enhancements**
- **Charting the Future of ACIP**
- **ACIP POCs**

Current Status

- **WEB Based Application**
- **ISEA response answers the question - Should the NIIN (issued for maintenance) be added to the APL cited on the issue document?**
- **Provides real-time research data**
- **Report utilities available in the application**
 - ✓ Provides users with the ability to generate ACIP statistics, e.g. # of ACIPs sent, # worked, response code distribution.
 - ✓ Monthly reports currently provided to NSWCs.

Potential Enhancements

- **Facilitate thorough and consistent reviews**
 - ✓ Encourage consistent application of responses
 - ✓ Encourage generation and use of reports for trending of problems
- **Update user's guide - available 1 June**
 - ✓ Provide training

Potential Enhancements (cont.)

- **ID potential configuration issues by:**
 - ✓ Preliminary NIIN/APL screening
 - ✓ ACIP review
- **Ensure adequate fleet involvement**
 - ✓ Close the loop for changes
 - ✓ Use ACIP statistics
 - Ensure fleet issues are properly addressed
 - Identify problem trends

Charting the Future of ACIP

- **Establish NAVSEA 04L sponsored steering committee/CCB**
 - ✓ Consisting of representatives from the TYCOMs, ISEAs, CDMs, NAVICP-M, and program offices
 - ✓ Determine appropriate changes to be made to the ACIP application
 - ✓ Prioritize changes
